\* deploy over a PaaS cloud \* <https://github.com/DRTorresRuiz/LaCazaDelTesoro>

### **2.1 Programming languages**

\* python

### **2.2 Frameworks**

### **2.3 Treasure Hunt**

The Treasure Hunt is a competition game in which a group of participants. They must find a series of treasures scattered throughout a play area. The location of each treasure will come indicated by a clue that suggests where it is hidden. The first winner will win the game. So the main goal of the game is to locate all the treasures.

## **3 Components**

### **3.1 User identification**

### **3.2 Chat**

### **3.3 Game creation**

## **4 User manual**

### **4.1 Setup**

## **4.2 Limitations**

\* limitations \* difficulties encountered

## **5 Summary**

Through this project we were able to  
It is very interesting to study a
